

Create / Collaborate / Engage

Vibe 75" digital whiteboard

An intuitive whiteboard to power distributed team collaboration

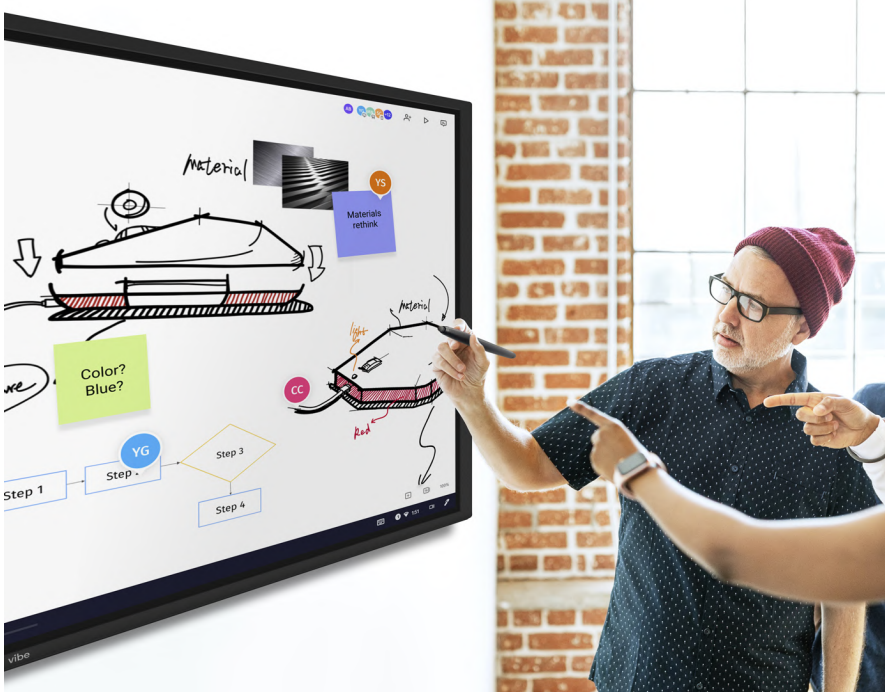

What is Vibe?

Vibe is an all-in-one solution that combines an interactive digital whiteboard and smart software on a 75" 4K Ultra HD display.

Why Vibe?

Create

Ideate together

Visualize what works, save ideas for other projects, and erase whatever no longer fits with the flow on an infinite canvas.

Collaborate

Bring teams closer

Connect remote employees like never before by providing them with technology that's on par with an in-office experience.

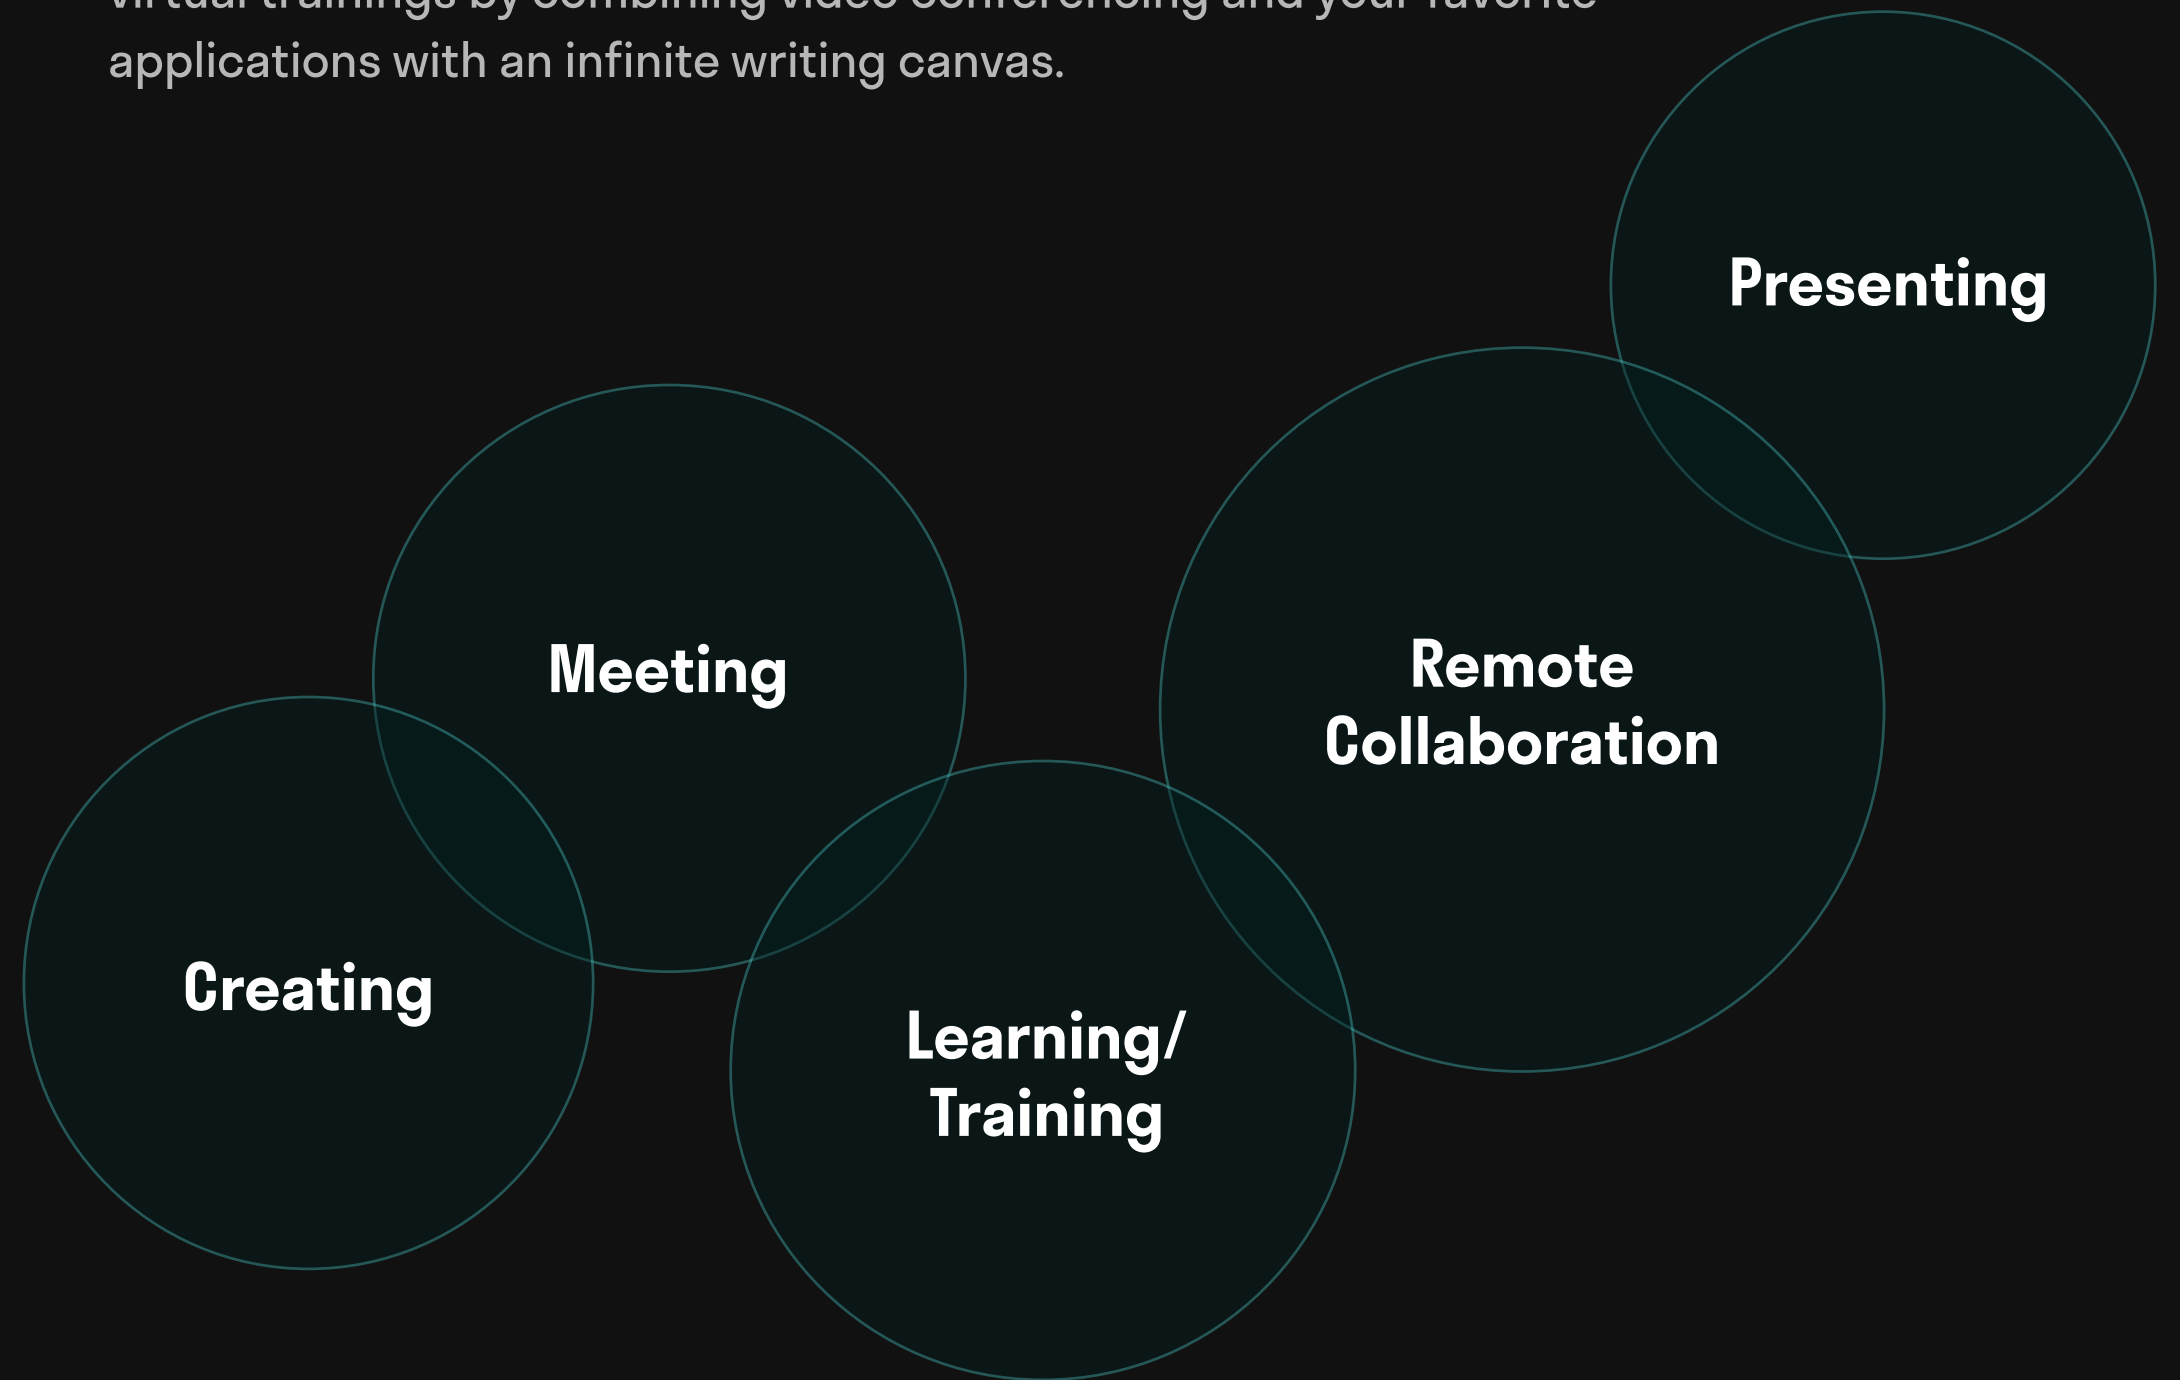

Engage

Activate your meetings

Connect with your audience through interactive sessions. Take notes or mark up images with the real-time whiteboard.

Vibe Scenarios

Activate your brainstorming sessions, client presentations, and virtual trainings by combining video conferencing and your favorite applications with an infinite writing canvas.

Scenario #1

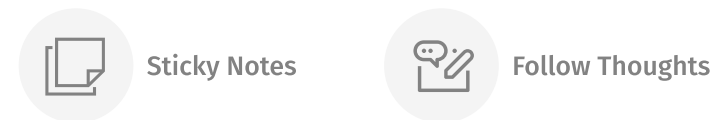

Creating with Vibe

Visualize your ideas on an infinite canvas

Vibe's digital whiteboard allows you to seamlessly share ideas in real time on an unlimited workspace. Erase drawings with a simple swipe of your palm.

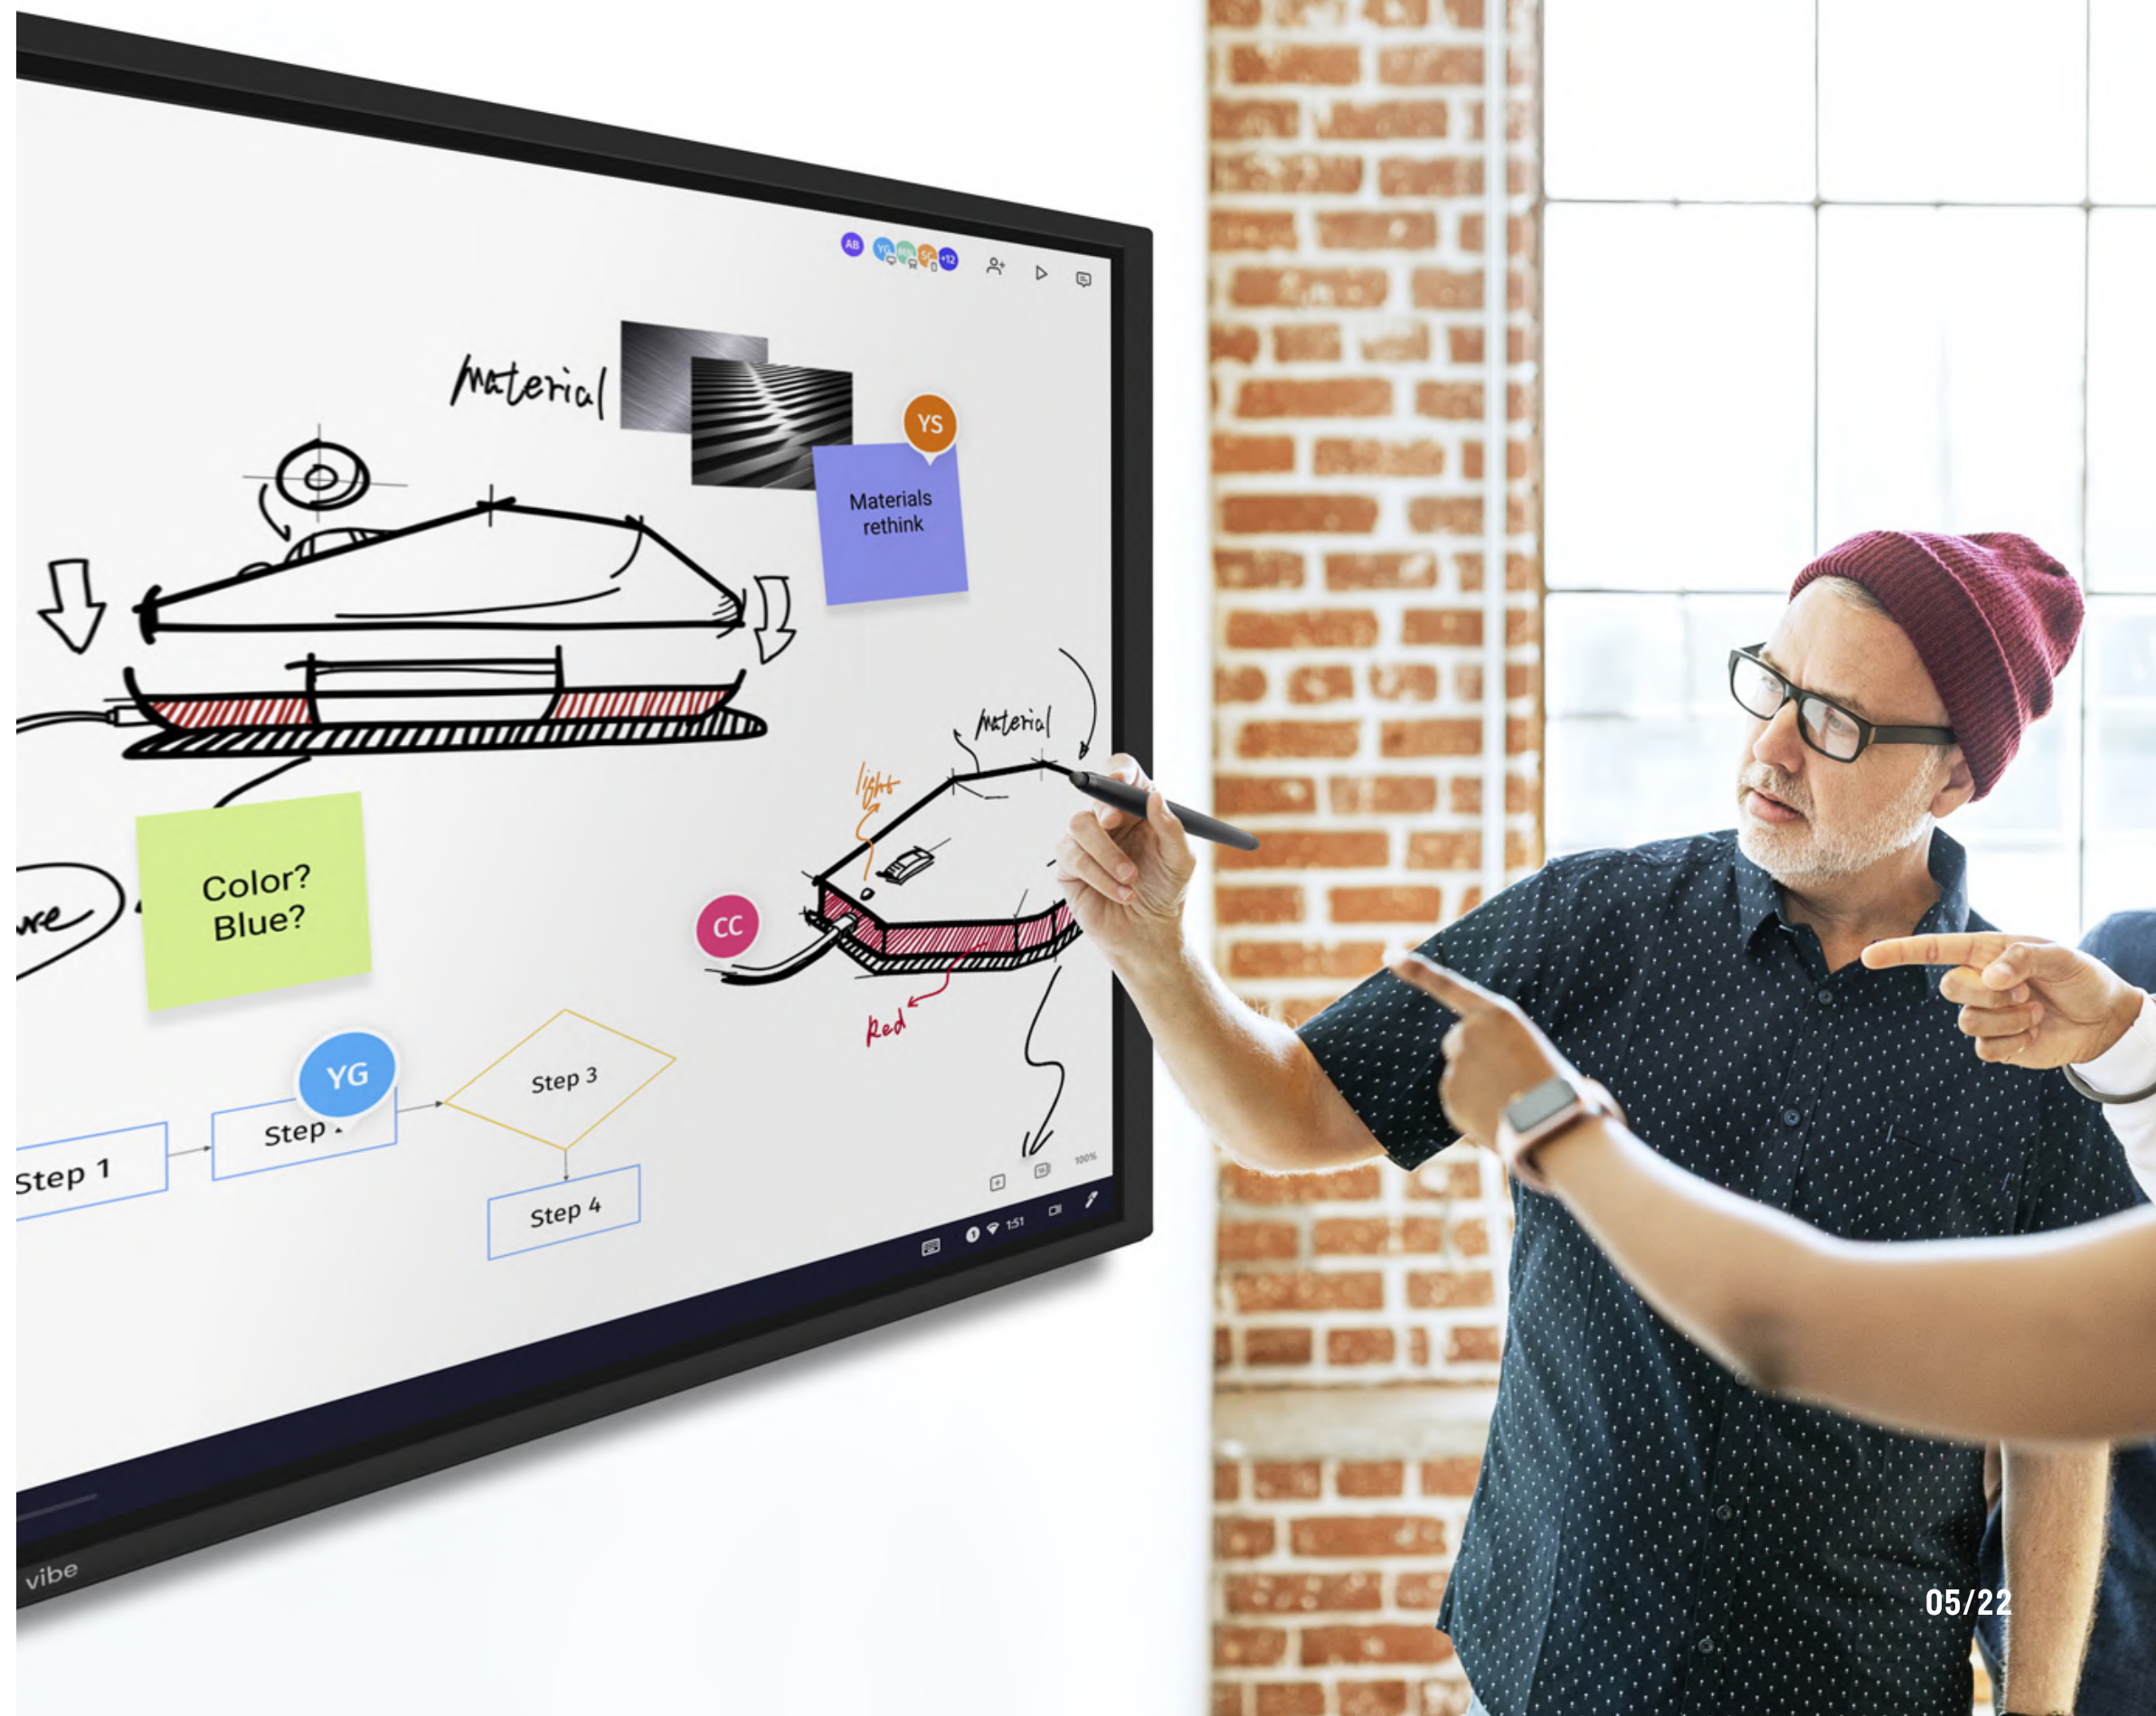

Brainstorm with your team

Use sticky notes to save ideas for later. When you want to see a teammate's train of thought, switch to their view with our Follow feature.

Save or export your discussion

Your board session can be directly printed or saved as a static PDF.

Scenario #2

Meeting with Vibe

Connect your team through one-click video conferencing*

Seamlessly schedule, manage, and join meetings directly from the standby screen with your favorite video conferencing apps.

4K UHD display and built-in speakers

Immerse yourself in outstanding video and audio quality from your Vibe device.

*One-click VC scheduled for release in fall 2021

Scenario #3

Remote Collaboration with Vibe

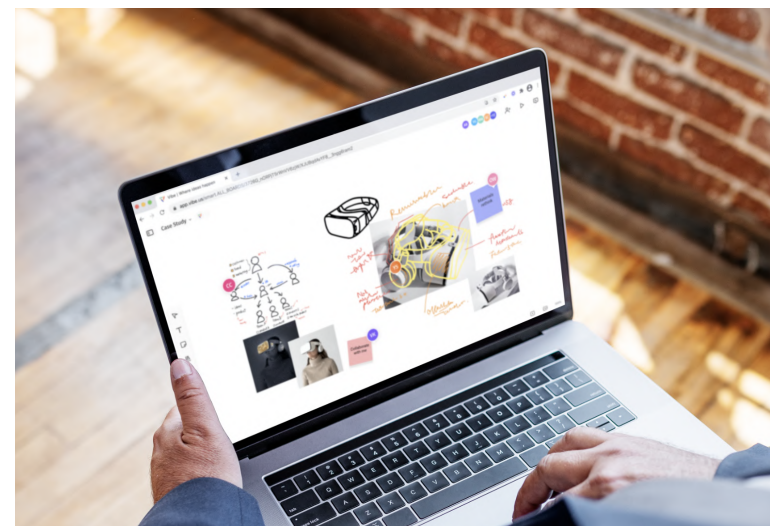

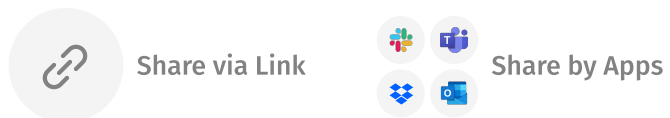

Access in real time on your device of choice

Seamlessly collaborate with the remote team in real time on whichever devices work best for your team.

Sharing ideas has never been easier

You can simply share this board via live link, email, Slack, or Teams message to any device.

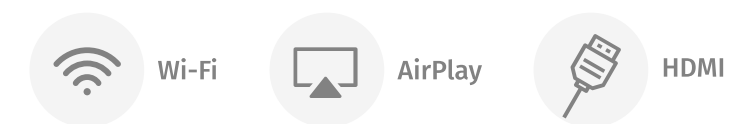

Scenario #4

Presenting with Vibe

Screencasting

Seamlessly present content by casting your screen to Vibe.

Annotation

Annotate the canvas to add context to a wide variety of documents.

Touchback

Use the touch display to interact with the PC you are screen sharing from.

Scenario #5

Learning with Vibe

Parallel to none in ease-of-use

Vibe works with the tools your classroom is already using. The intuitive interface ensures no learning curve at all.

Engage from anywhere

Now your students can stay engaged, collaborate with you and each other, and experience live learning sessions from their own devices.

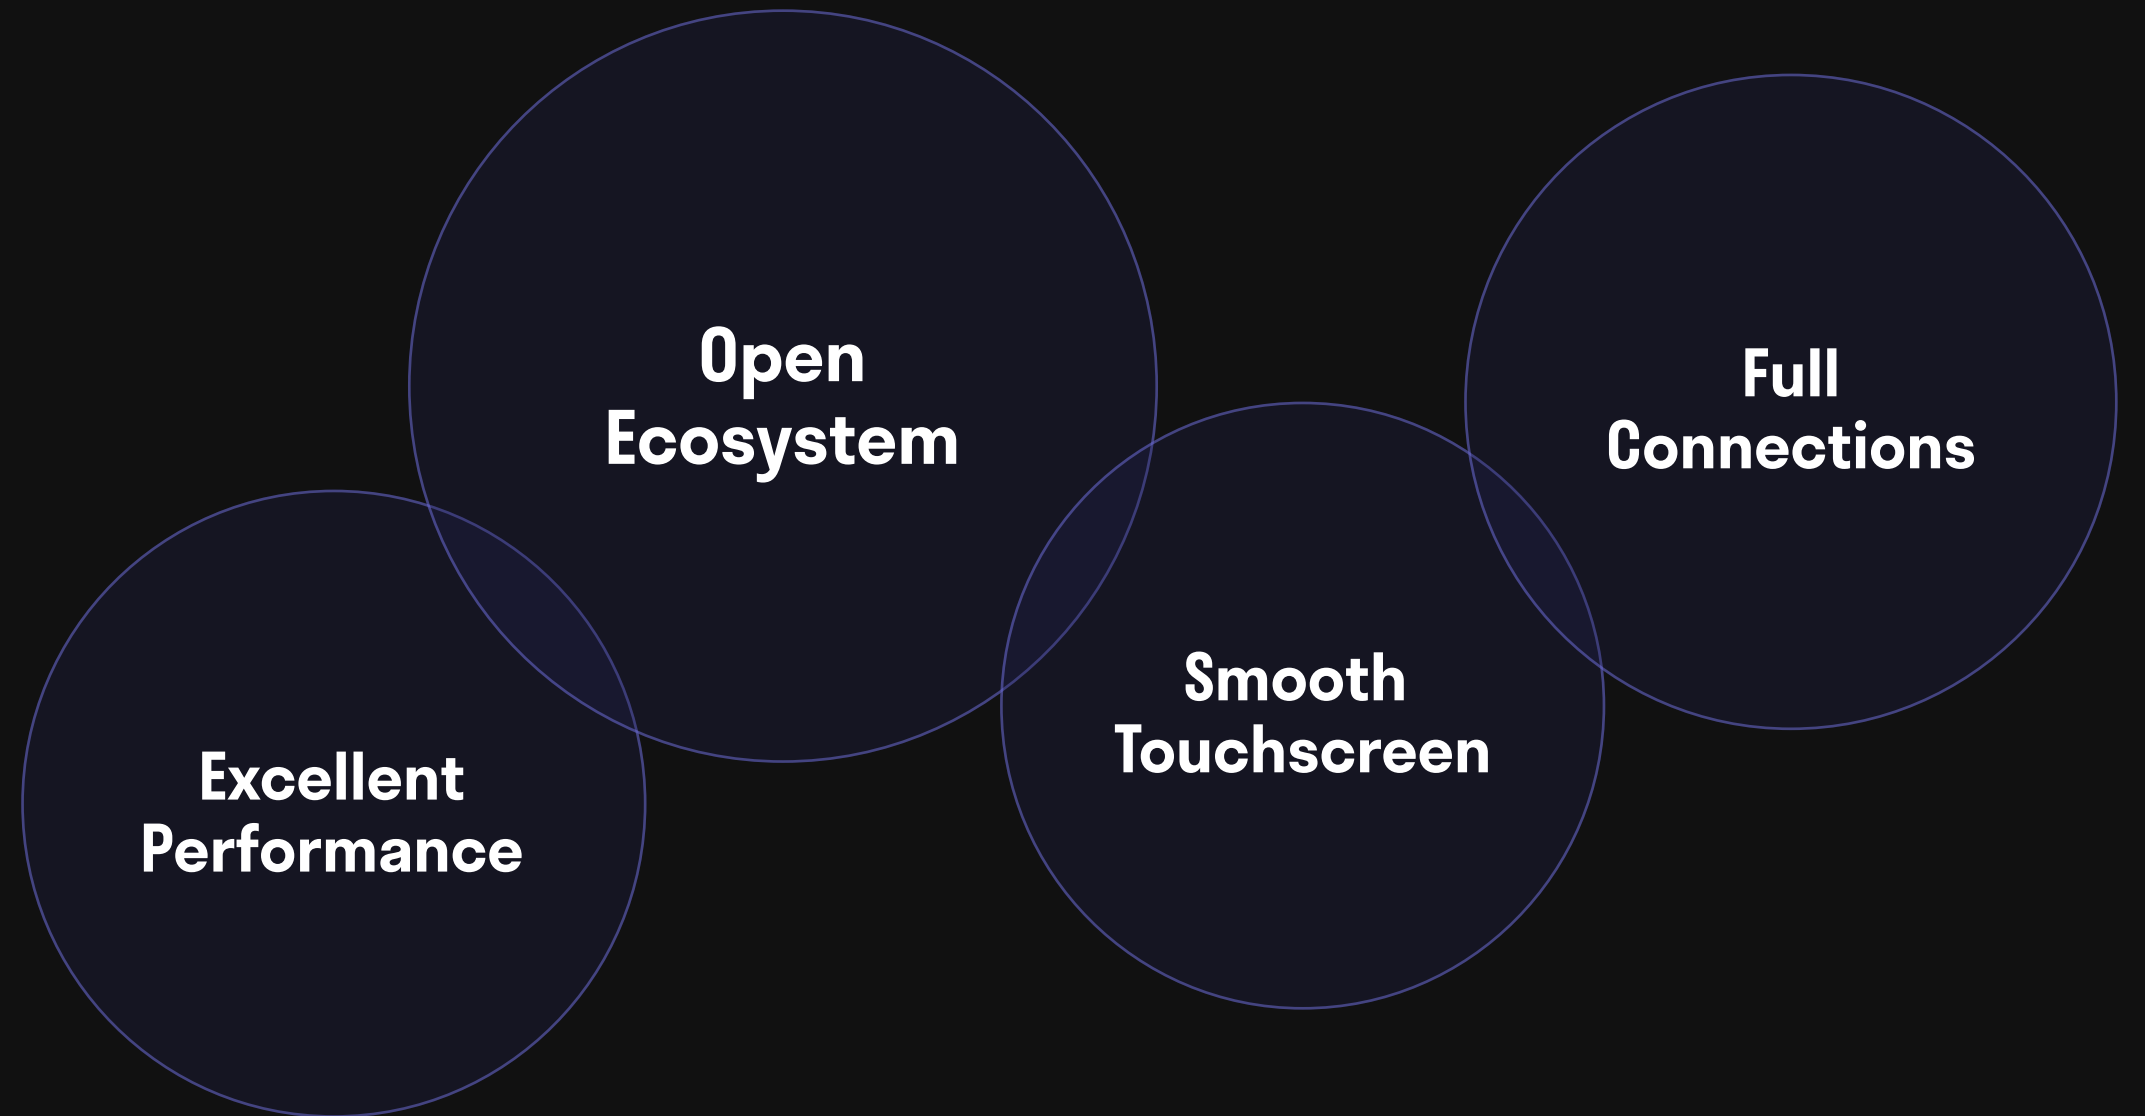

Simple setup and maintenance with fleet management

Conveniently manage all Vibe devices through one IT portal and ensure compliance across the entire school.

Innovating with Vibe

Designed by a global team for remote collaboration, Vibe combines an intuitive touchscreen with a keynote-worthy display, powered by Intel processors and Chromium OS to activate meetings, training sessions, and presentations.

Highlight #1

Vibe Ecosystem

Seamless integration with your favorite apps

Stick to the apps that your team already knows and loves, there's no need to make additional purchases.

App Store

Google Play

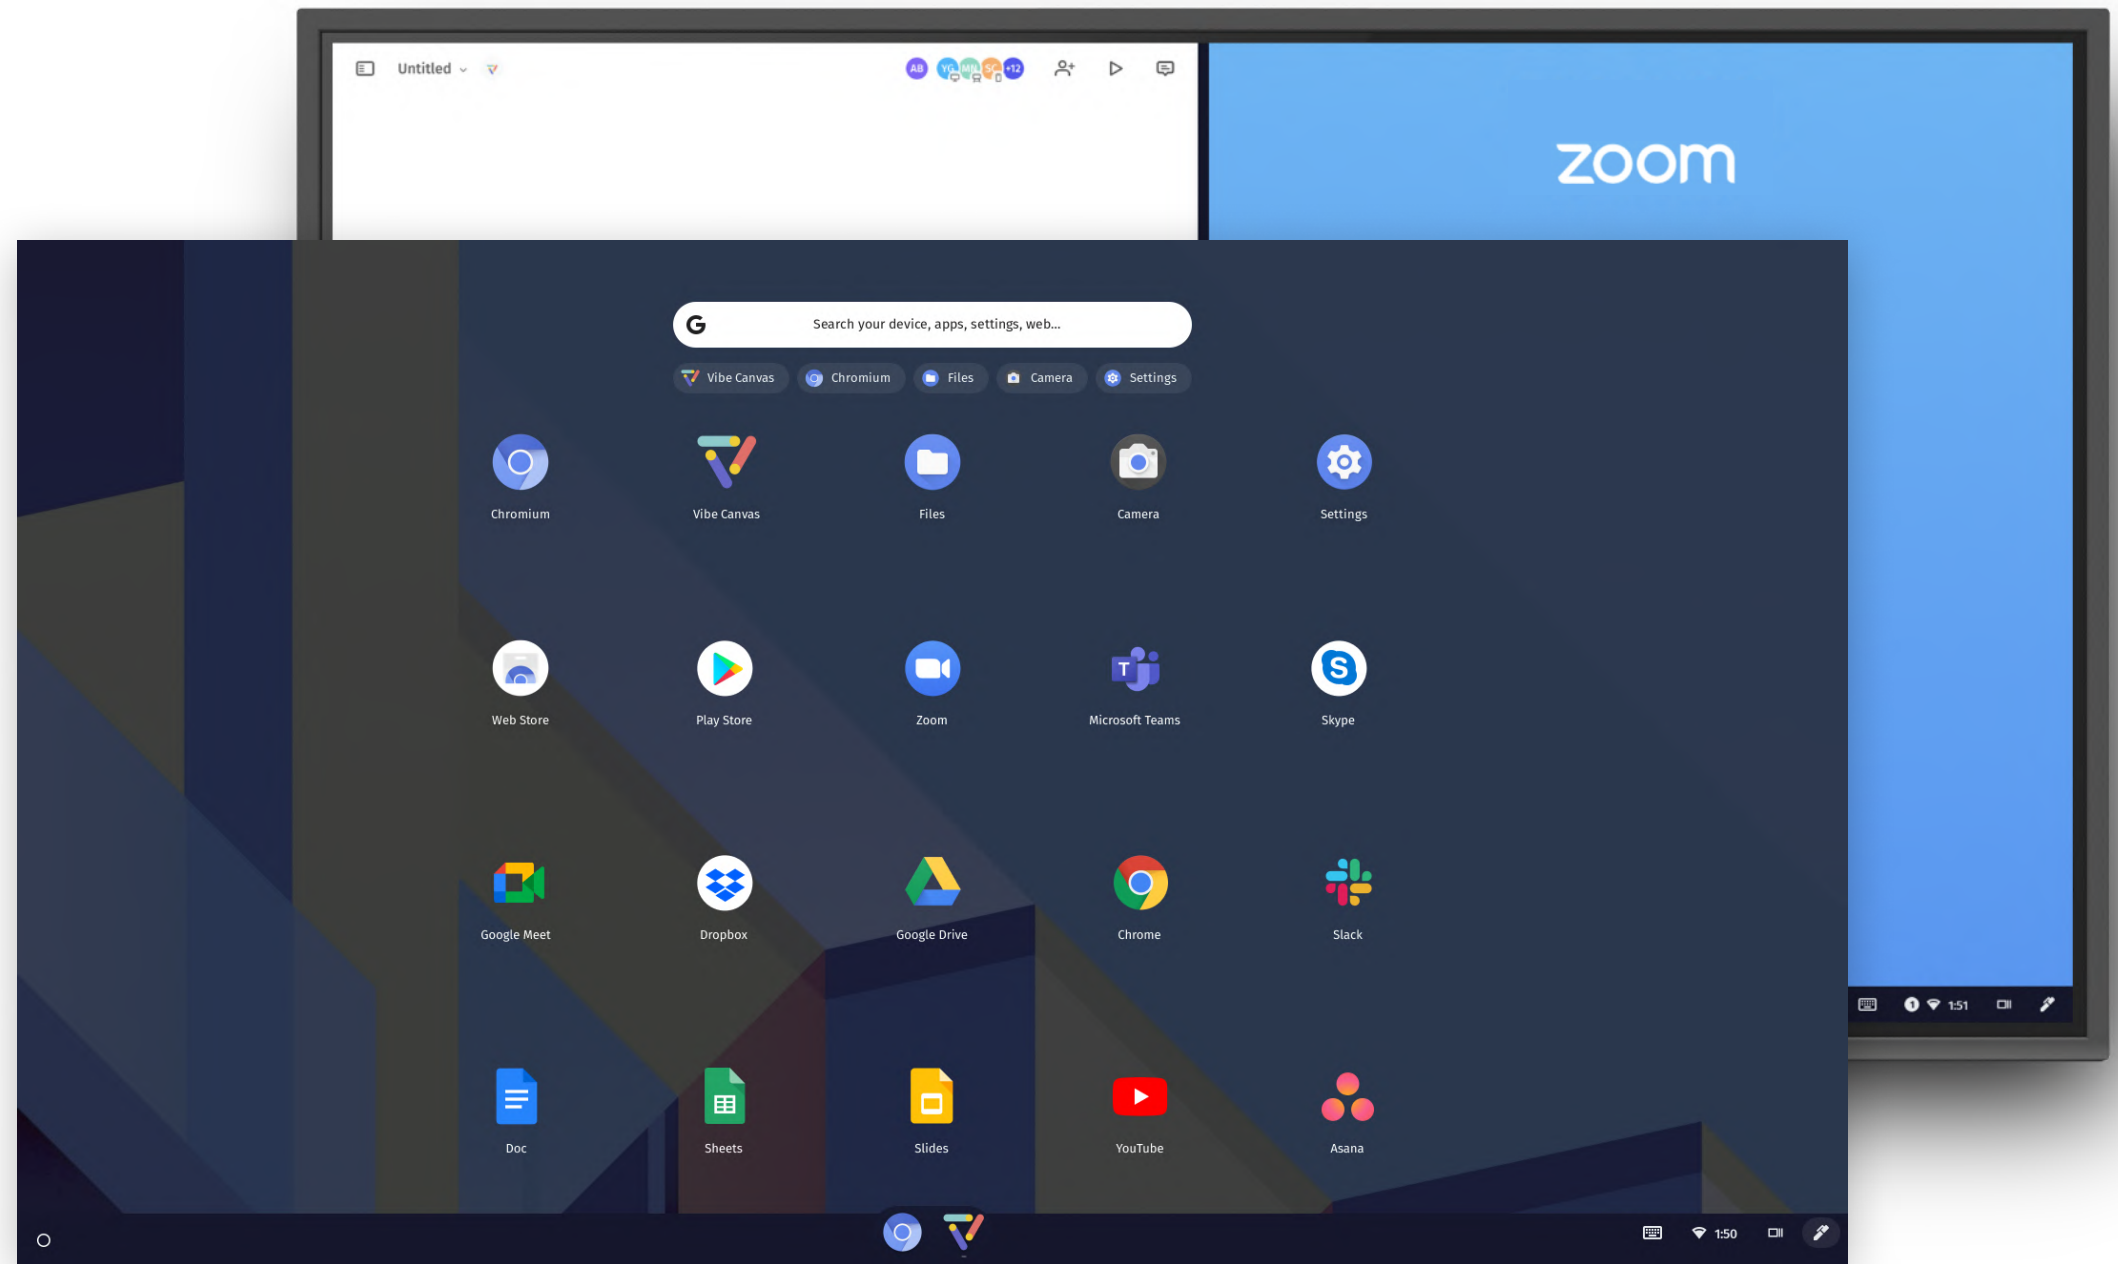

Web Store

A collaborative ecosystem organized just for you

Vibe helps companies effectively collaborate across expanding business and IT ecosystems, including Google- and Microsoft-based (among others).

Faster and safer computing with Chromium OS

Experience ultra-smooth operations from Chromium OS with simple and clean user interface.

Highlight #2
